

# Welcome everyone!

- You can find these slides on GitHub here:  
<https://github.com/WomenWhoCode/WWCodePython>
- Please make sure your chat is set to “All panelists and attendees”.
- Some housekeeping rules:
  - Everyone will be muted throughout the webinar, but there will be opportunities for participation!
  - Please share your thoughts on the chat and/or ask questions in the Q&A.
  - The entire team is here today. Please reach out to us with any technical questions!

# Women Who Code: Python

Beginner Python Study Group  
Session 2: Python Libraries

Meet us!

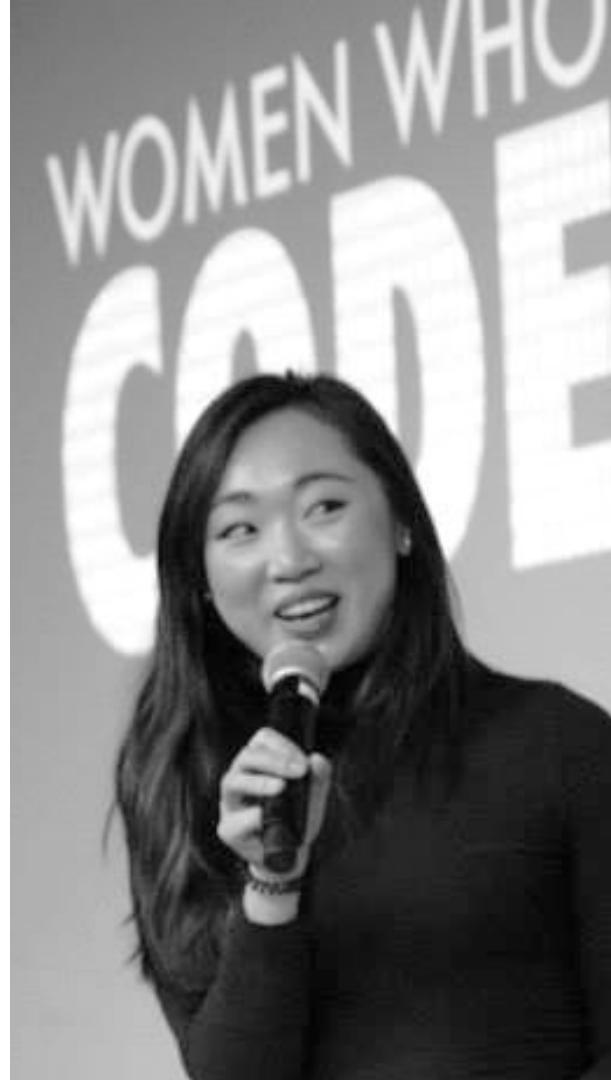

# OUR MISSION

Inspiring women to  
excel in technology  
careers.

# OUR VISION

A world where women are representative as technical executives, founders, VCs, board members and software engineers.

# OUR TARGET

Engineers with two or more years of experience looking for support and resources to strengthen their influence and levelup in their careers.

# CODE OF CONDUCT

**WWCode is an inclusive community**, dedicated to providing an empowering experience for everyone who participates in or supports our community, regardless of gender, gender identity and expression, sexual orientation, ability, physical appearance, body size, race, ethnicity, age, religion, socioeconomic status, caste, creed, political affiliation, or preferred programming language(s).

Our events are intended to inspire women to excel in technology careers, and anyone who is there for this purpose is welcome. We do not tolerate harassment of members in any form. Our **Code of Conduct** applies to all WWCode events and online communities.

Read the full version and access our incident report form at [womenwhocode.com/codeofconduct](http://womenwhocode.com/codeofconduct)

# 230,000 Members

70 networks in 20 countries  
Members in 97+ countries  
10K+ events  
\$1025 daily Conference tickets  
\$2M Scholarships  
Access to [jobs](#) + [resources](#)  
Infinite connections

# OUR MOVEMENT

As the world changes, we can be a connecting force that creates a sense of belonging while the world is being asked to isolate.

# Today's Agenda

1. (Recap) Intro to Colab 🙌
2. Intro to Python libraries 📚
3. “pip install” 💻
4. How to use Python libraries 📚
5. Mini Exercise 🔧

# WOMEN WHO CODE

## Let's Get Started!

<https://github.com/WomenWhoCode/WWCodePython>

# Wrap-Up

- **pip install**
  - What is pip install?
  - How exactly can I install a library on my computer?
- **How to Use a Python Library**
  - Importing a library
  - Check version
  - Understand library structure
  - Help function
- **Next session: Data types Part 1!**

# Thanks, everyone!

# Upcoming Events!

THU  
17  
SEP

## Building a Bot for WhatsApp using Python and Flask

11:00 AM – 12:00 PM (EDT) | ♫ Zoom
